ABOUT US

Valens International is a globally recognized **manufacturer of innovative food supplements and ingredients**, designed to meet the challenges of modern lifestyle and health aware consumers. An experienced team of **nutritionists, chemists and marketing experts** is dedicated to exceeding expectations of our customers and partners.

While our products are currently available in **5 continents**, our global presence is constantly expanding through:

- **exclusive distributorships**
- **contract manufacturing and**
- **private label services.**

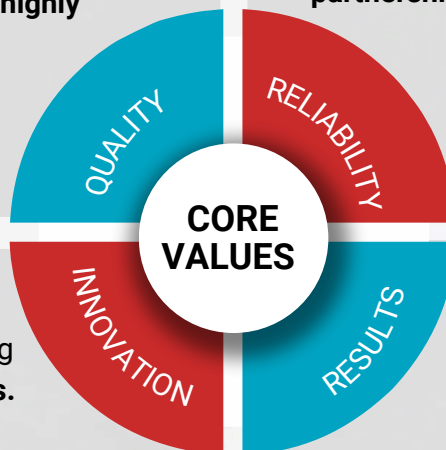

Our business facility is strategically located in **Slovenia, the heart of Europe**. Our business process is compliant with several internationally established standards and certificates:

- **ISO 9001:2008**
- **IFS**
- **Good Manufacturing Practice (GMP)**

- Our business process runs in compliance with several **quality standards**.
- Independent clinical trials and studies confirm effectiveness of our products.
- We focus on superior and **highly bioavailable ingredients**.

- We dedicate our business to **exceeding expectations of our customers and partners**.
- We focus on **long-term partnerships**.

- We focus on developing **innovative formulations**.

- We offer **market proven products**.

PORTFOLIO & SERVICES

1. Q10VITAL®

Clinically proven world's best coenzyme Q10.

Unique form of coenzyme Q10 with **highly improved water-solubility, bioavailability and absorption**. 4 independent clinical studies have proven up to **4-times better bioavailability of Q10Vital®** compared to basic CoQ10.

- Available as raw material for supplements, food and beverage.
- Suitable for different liquid formulations.

2. FINISHED PRODUCTS

Food supplements, available for distributorship or private label:

3. CONTRACT MANUFACTURING

We can meet your specific needs and create **unique products** with new formulas. We have the experience and the tools to make it happen from scratch, using our **R&D services**.

COMPANY HISTORY

2005

A team of Slovenian scientists developed an innovative **water-soluble form of CoQ10** with superior bioavailability. Valens took over the sales and marketing of the invention as a registered trademark Q10Vital®. It was the first CoQ10 worldwide that enabled liquid formulations.

2007

Quvital®, a line of premium quality food supplements with Q10Vital® was introduced to pharmacies in Slovenia.

2008

Independent clinical study proved **superior bioavailability** of Q10Vital®, which led to a new breakthrough in global sales of raw material and finished product.

2015

Our first vitamin D oral spray was launched and awarded the **most innovative food supplement** by the Nutrition Institute of Slovenia.

2016

Clinical study proved **anti-aging effects** of Q10Vital® on human skin.

2018

Several new oral spray formulations were launched, leading to the world's **most complete line of oral sprays**, available for private label customers.

COMPANY HISTORY

2019

Valens Premium Collagen Complex, liquid food supplement with **Q10Vital®** and **collagen** was launched. A groundbreaking clinical study proved **synergistic effect** of its ingredients, boosted product sales and upraised the product to one of the **best in field of nutraceuticals**.

2020

A clinical study proved efficacy of Valens vitamin D formulations in improving suboptimal vitamin D status.

2020

Line of **100% natural products** was launched.
